

```
Hello Ditiss!!
rajat@rajatUbuntu:~/COSA/C2_80462_Rajat$ cat > linux.txt
English isn't just the "universal language" of the physical world
it's the most dominant language of the digital world too.
UNIX is a user-friendly operating system.
It just picks its friends more carefully than others
In Linux everything is File
Keyboard is file.
Monitor is file
